To Whom it May Concern;

**RE: REFERENCE**

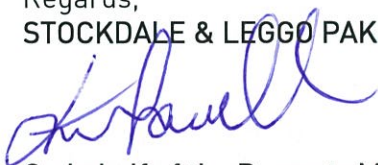

We write this letter in support of the "Fantastic" Services provided by Fantastic Garage Doors, on more than one occasion Keith has gone out of his way to save our landlords thousands of dollars which as you can imagine they are very happy with, despite other companies trying to up sell a whole new garage door Keith has promptly as requested contacted our tenants taken a look at the door and on most occasions repaired the door on the spot and has been upfront and honest and never tried to over quote a job.

Not only are our Landlords happy with the job, but from a customer service point of view jobs have always been completed within 24 hours or less in most occasions, with a prompt email to advise us of the outcome of the job along with the invoices being sent through thereafter for payment.

We highly recommend Fantastic Garage Doors and will continue to use their services, as Property Managers it makes our lives much easier when trades are so prompt and easy to work with whilst ensuring our clients are also satisfied with their level of work.

For any further information please feel free to contact us.
